Lawrence, Kansas
January 11, 2012

This course will enable participants to develop an effective interface between the Incident Command and the Emergency Operations Center (EOC) by applying Incident Command System (ICS) principles.

Objectives

- Describe ICS principles
- Describe MAC/EOC principles
- Identify the roles and responsibilities of ICS and EOC during emergency operations
- Using scenarios, analyze the ICS and EOC systems and identify various interface issues
- Apply ICS/EOC interface concepts in an exercise situation
- Begin developing an ICS/EOC interface action plan for your community

Target Audience Personnel associated with on-scene Incident Command and EOC Multiagency Coordination (MAC) System entities. This course works best when delivered to incident commanders, command and general staff, and emergency operations center personnel from the same community. Exercises and group discussions are used extensively to allow participants to begin developing an interface plan for their jurisdiction. There are no required prerequisites for this course.

G191—*Incident Command System/Emergency Operations Center Interface* is a required course for the **Advanced Professional Series**. Please visit the EMI website for more information about this series and how to request your APS certificate of completion: <http://training.fema.gov/emiweb/APS/>.

The deadline to register is one week before the course starts (December 28, 2011)

Lodging reimbursements will be available for those traveling 60 miles or more (up to \$77/night, per person, for up to 1 night).
